## Combat Training Division

### Military Krav Maga Instructors Course

The **IKM Combat Training Division** offers a training course that was designed specifically to answer the needs of soldiers and operatives of military units and Special Forces and all others who wish to gain skills in this field of activity in order to provide them the tools to operate in the challenging reality of their line of duty. The course deals not only with the combat skills, but also provides critical knowledge regarding the threats facing us today and the methods being used in order to prevent such threats.

During the past years the **IKM Combat Training Division** trained a significant number of Police, Law Enforcement, Military and special units around the world. During training **IKM** provided effective Solutions to various situations according to the specific reality and needs of each unit.

The **IKM Combat Training Division Director**, Shahar (Sean) Or, is an Expert 2 level Krav Maga Instructor with vast operational experience in the fields of Law Enforcement, Military, Police, VIP Protection and Security. Shahar served in one of the Golani Brigade SF for 5 years and still active as reserved operative in his unit. During the past years shahar have trained a large number of security services such as the Panamanian presidential secret service, the Italian police combat instructors, Law Enforcement Instructors from New York State, SWAT and many others serving in the Israeli security services.

**The IKM Military course includes the following topics:**

#### **Threat Identification and alertness**

**IKM** believes that in order to fight terror activity and defend your country effectively, high level combat skills have to go side by side with the critical knowledge of identifying threats and alertness that in many incidents may prevent a hostile activity in its initial stages. During the seminar, we will share suspect identification techniques, suspicious signs, questioning methods, preventive behaviour and deal with a number of terror threats such as suicide bombing and more.

#### **Weaponss Training**

Starting with the basics, **IKM** firearms training includes the tactical use of pistols, sub-machine guns and rifles in different types of scenarios and environments. **IKM** instructors will provide a wide range of armed combat techniques while using realistic scenarios and extensive training methods.

## Combat Training Division

### **Krav Maga**

During the course we will cover a large number of Krav Maga techniques while focusing on the way they are being use in military work. We will also practice Realistic scenarios, under stress drills and more. We will especially train on counter techniques against armed and non-armed attacks while operating with full gear and weapons. A critical topic we will cover is the close range response using KM techniques in order to gain time and distance to use our weapons.

### **Military Tactics**

The Military tactics training program includes a number of subjects all related to the actual operational needs of soldiers and SF operatives. During training we will provide tactical solutions to a variety of operational situations such as: sweeping a hostile area, moving with a weapon, opening corners and using covers, search and secure suspects and more.

### **Tactical Drills**

Reality based tactical drills which include a large number of scenarios that will test the knowledge earned during training while combining all combat components such as: Military Tactics, Krav Maga, Rapid response and more, all In order to simulate reality at the max.

The course will consist of 10 days of training. At the end of the course a diploma of a Krav Maga Military Instructor will be given to students which successfully pass a final exam and are CIC certified. A yearly renewal of the diploma will be granted after completing an instructors training seminar in order to maintain a high level of professionalism, tactical and technical updates and more.

### **Cost**

1 part of 10 day course – 1000 Euro per student

2 part of 5 days each – 600 Euro per each student per each part.

\*\* All courses and seminars may include topics from all training programs according to the specific needs of the client.
