VIP Protection Krav Maga Instructors Course

The IKM Combat Training Division offers a three day seminar that was designed specifically to provide combat skills in the field of VIP protection. The seminar was created in order to answer the needs of VIP protection agents in order to provide them with the tools to operate in the challenging reality of their line of duty. The seminar deals not only with the physical combat skills, but also provides critical knowledge regarding the threats facing us today and the methods being used in order to prevent such threats.

The IKM Combat Training Division Director, Shahar (Sean) Or, is an Expert 2 level Krav Maga Instructor with vast experience in the fields of Law Enforcement, Military, Police, VIP Protection and Security. During the past years Shahar have trained a large number of security services such as the Panamanian presidential secret service, the Italian police combat instructors, NYPD Tactical unit, SWAT and many others serving in the Israeli security services.

The VIP Protection Seminars will include the following topics:

VIP Protection

The VIP Protection training program includes a number of close protection methods while working as a single body guard, a pair of body guards or as team. A major part of the training will focus on methods of secured movements with your dignitary in various situations such as: walking down the street, during an event, while entering and exiting the car and more. Apart from movements, the participants will also practice methods of dividing between the dignitary and the opponent, methods of evacuation, methods of cutting through crowd and more.

Krav Maga

During the seminar we will cover a large number of Krav Maga techniques while focusing on the way they are being use in VIP protection. We will also practice Realistic scenarios, under stress drills, moving from Krav Maga techniques to weapon response, and more.

Threat Identification and alertness

IKM believes that in order to protect your VIP effectively, high level combat skills have to go side by side with the critical knowledge of identifying threats and alertness that in many incidents may prevent a hostile activity in its initial stages. During the seminar, we will share suspect identification techniques, suspicious signs, questioning methods, preventive behaviour and more.

Weapons Training

Starting with the basics, **IKM** firearms training includes the tactical use of pistols in different types of scenarios and environments. During the seminar will provide a wide range of armed combat techniques while using realistic scenarios and extensive training methods. The training will focus on moving from Krav Maga response to weapon response to various threats and the specific principles of weapon use in VIP Protection.

Tactical Drills

Reality based tactical drills which include a large number of scenarios that will test the knowledge earned during training while combining all combat components such as: VIP Protection Tactics, Krav Maga, tactical movements and more, all In order to simulate reality at the max.

The course will consist of 10 days of training. At the end of the course a diploma of a Krav Maga VIP Protection Instructor will be given to students which successfully pass a final exam and are CIC certified. A yearly renewal of the diploma will be granted after completing an instructors training seminar in order to maintain a high level of professionalism, tactical and technical updates and more.
